Vision

To make lives easier for students.

Motto

If it's not broke don't fix it.

Team Expectations

Meet twice a week. All code will be committed to the repository. Each person will receive an assignment to be completed before the next meeting. If you cannot attend a meeting 24 hour notice prior will be given.

Meeting Time

Times may have to change we have people in our group with changing schedules. We may see if we can get consistent days. We are using a program to help find times to coordinate. Currently the times are

Tuesday: 10:00 am - 11:00 am

Thursday: 10:00 am - 11:00 am

How Conflicts will be resolved

If there is a problem with a teammate we shall contact them privately first to see if we can resolve the issue. If that does not work we can bring it up to the group. If there are still problems we can contact the professor. Finally a duel to the death by swords.
